ABOUT US!

At Precision Sensors Design, Inc., we are dedicated to enhancing the performance and reliability of air conditioning systems through our state-of-the-art Digital Pressure Gauge. Engineered specifically for refrigerant applications, our advanced gauge delivers precise, real-time pressure measurements, enabling optimal operation and maintenance of air conditioning systems. Our commitment to innovation ensures that every product we design supports efficiency and accuracy, making us a trusted partner in the industry.

OUR PRODUCT

Pressure Range: -1 to 50 Bar
Maximum Over Pressure: 70 Bar
Burst Pressure : 100 Bar
Operating Temperature: -30°C to 85°C
Resolution: 0.1 Psi
Fitting: PT 1/8"

FEATURES

RGB backlight LCD
400 Meters Bluetooth coverage
Shock resistant MIL-STD-810 IP 66
Unit display options
(Bar, Kg/cm², cmHg, Psi, mPa, kPa)
FREE download IOS /Android App
FREE AAA batteries x3
